## Elementary Schools Learning Model Information

**VIRTUAL SCHOOL**  
VISTA UNIFIED SCHOOL DISTRICT

<p><b>How long will this registration be in place for?</b></p>	<p>Your student will remain in the chosen learning model for the entire first semester. We will prepare a second registration process for the second semester, if necessary, depending on the status of the COVID-19 pandemic.</p>
<p><b>Where can I find more information about each learning model?</b></p>	<p><a href="#">This infographic</a> provides details about the Vista Classic learning model and the Vista Virtual learning model.</p>
<p><b>If my student is in Vista Classic, when health orders allow students to return to campus, will my student stay with their same schedule and teachers?</b></p>	<p>Yes. That is one of the reasons why we are doing an early registration, even if county health orders prohibit us from in person learning. Students will be assigned a teacher and will remain with that teacher and the students in their class whether we are on campus or in a distance learning environment.</p>
<p><b>When health orders allow us to return to campus, what health procedures will be in place for the Vista Classic Model?</b></p>	<p>For the Vista Classic model, students will be required to follow a robust set of health and safety measures while on campus. These measures include wearing an appropriate face covering, observing social distancing as practicable, following health check guidelines, and observing other procedures as required by the county health orders.</p>
<p><b>Is there detailed information about the reopening plans?</b></p>	<p>Details can be found on our website <a href="http://www.vistausd.org/schoolreopening">www.vistausd.org/schoolreopening</a> and on our <a href="#">FAQ document</a>.</p>
<p><b>My student receives special education services. What should I be considering?</b></p>	<p>Regardless of the model you choose, your IEP teams will convene to ensure that your student will have the appropriate support and services to access the learning model and receive Free Appropriate Public Education (FAPE). If you choose the Vista Virtual learning model, all IEP services to include related services (e.g., speech therapy, counseling, occupational therapy, etc.) will be provided via live virtual instruction. This approach may not be best for some students who have more intensive special education needs. If you choose the Vista Classic learning model, it is important to note that we cannot provide this model until the county health and safety orders are lifted.</p>
<p><b>How much time will my student be required to be online each day?</b></p>	<p>Schedules for students will vary depending on grade level. Instruction will be live with the teacher each day and there will also be time for students to work independently each day.</p>
<p><b>Will my child have a device to use for lessons?</b></p>	<p>Yes. Students will be able to come to school (day to be determined) to check out a device and receive other materials to take home such as workbooks, pencils, and crayons.</p>
